Objective

Full Stack Developer who joined **SeloraX** as an apprentice and was **promoted twice in 8 months** to Junior Full Stack Developer. Ships production features end-to-end with **React, Next.js, TypeScript and Prisma**, from company dashboards to the interface of an **AI calling assistant**, and builds **LLM and RAG** applications on the side.

Technical Skills

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Radix UI, Framer Motion, HTML5, CSS3, Responsive Design, PWA, Zustand, TanStack Query, SWR, React Hook Form, Zod
Backend: Node.js, Express.js, Next.js Server Actions & Route Handlers, REST API, Auth.js / NextAuth
Databases: PostgreSQL, MySQL, SQLite, MongoDB, Prisma ORM, Drizzle ORM, pgvector
AI & ML: LLM integration (Anthropic Claude API), RAG & vector search, embeddings, Python, scikit-learn, pandas, Flask
Tools: Git, GitHub, Vercel, Figma, Docker (basic), Recharts, Chart.js
Languages: Bangla (native), English (conversational)

Education

BSc in CSE — 2024–Present — Uttara University

Work Experience

Junior Full Stack Developer, SeloraX – *promoted from Web Developer Intern* — July 2026–Present

- Work on both the frontend and backend of the **SeloraX dashboard**, delivering features end-to-end from UI to database with **React, Next.js, TypeScript and Tailwind CSS**
- Developed the chat interface and dashboard for **XCall**, SeloraX's AI calling assistant (an **LLM agent** that runs calling campaigns from a single chat), and integrated it with the call and messaging system
- Built **SeloraX EMS**, the company's employee management system covering staff records, attendance with shift-based late tracking, leave, payroll and QR employee cards across four user roles (**Next.js, TypeScript, Prisma**, Zustand, Zod)
- Built **Team Profile**, server-rendered staff profile cards backed by the company **MySQL** database, exposing only public fields to the browser
- Collaborate with senior developers on API integration, bug fixes and code reviews

Web Developer Intern, SeloraX – *promoted from Frontend Developer Apprentice* — January 2026–June 2026

- Worked on the frontend of the **SeloraX dashboard**, converting **Figma** designs into responsive, reusable React components and resolving production UI bugs
- Built internal tools that sped up the team's manual data tasks

Frontend Developer Apprentice, SeloraX — November 2025–December 2025

- Built responsive interfaces with **HTML, CSS, JavaScript and React** under the guidance of senior developers

Projects

Alora – AI Customer Assistant | *Next.js, TypeScript, Claude API, pgvector, Drizzle ORM* — GitHub
Answers customer questions from a shop's own information and past replies using **RAG** with local embeddings; includes a retrieval evaluation script and tenant-isolation checks.

MessHub – Mess & Hostel Management | *Next.js 16, TypeScript, Prisma, Auth.js, Zod, PWA* — Live · GitHub
Full-stack platform for a shared mess or hostel: members, meals, bazar, expenses, settlements, duties and notices, installable as a PWA.

TaleForge – Storytelling AI | *Next.js, FastAPI, PostgreSQL, Docker* — Live · GitHub
Bangla and English story-writing platform that adapts to a writer's style, with story chat, image-to-story generation and a story library.

Cricket Predictor Pro – ML Predictor | *Python, scikit-learn, pandas, Flask* — GitHub
Predicts T10, T20, ODI and Test match statistics by comparing linear, polynomial and gradient-boosting models (MAE, R^2, RMSE), with an innings simulator and REST API.

Other Projects

Habit Tracker (Next.js 16, Prisma, PWA) · **BudgetBD** (Next.js Server Actions, SQLite) · **Dr Nature** (Next.js 15, Framer Motion) · **Talksy** (React, ZEGOCLOUD video calls) · **ClimateHub** (weather PWA, push notifications)
